Morning all!

I have already gotten some comments back and have tried to address them, so let's use this next version. I've tried to proposed highlight in red the changes. You can see Linda's comments and suggestions, some of which i've tried to address, but of course will need help from the group.

talk soon.

jose

Subject: ppt for discussion

DRAFT DELIBERATIVE

Hi all. So I've added slides and bullet points to this ppt presentation which is what we might propose to USGS as something to be combined with theirs for the briefing to industry. Thanks for all the info/points folks have sent.

Probably more than needed, but we can whittle it from there and use extra slides as back up. Definitely needs a critical review from everyone - please prepare for our morning discussion.

Of course the initial discussion with USGS will be much more general and focus on scoping out the key areas for discussion/working out/presenting.

Need particular help on Slide 21. I'm reading Dom's draft paper tonight.

Best to all,

jose
